SUMMARY

Business and Computer Science (BUCS) student at UBC who ships full-stack systems end-to-end, including MongoDB schema designs to ONNX-optimized, CI/CD-deployed RAG pipelines. Collaborates well in cross-functional, fast-paced teams; seeking a software engineering internship position throughout the upcoming 2026 and 2027 terms. Currently building an application designed to assist family members in caring for their sick loved ones.

EDUCATION

University of British Columbia

Bachelor of Commerce – Combined Major in Business and Computer Science (BUCS)

Vancouver, BC

Expected Apr 2029

Relevant Coursework: Algorithms & Data Structures, Software Construction, Computer Systems, Models of Computation

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Java, SQL, C++, R

Frameworks: React, Next.js, Node.js, Express, FastAPI, LangChain, EJS

Databases: MongoDB, ChromaDB, SQL

Tools & Cloud: Microsoft Office 365, Git, Docker, CI/CD, Vercel, Railway, Render

TECHNICAL PROJECTS

RAG Documentation Chatbot | *Python, FastAPI, LangChain, ChromaDB, ONNX, React*

- Built a full-stack retrieval-augmented chatbot answering questions over Vercel documentation, returning streamed responses in **under five seconds** through an end-to-end ingestion-to-generation pipeline
- Cut deployment image size by **83% (5.7GB to under 1GB)** by replacing HuggingFace/torch with ONNX runtime, enabling faster CI/CD deploys
- Implemented ChromaDB similarity search with ONNX embeddings and real-time token streaming over Server-Sent Events (SSE)
- Deployed on Vercel and Railway with automatic CI/CD triggered on every push

Ultimate Frisbee Coaching Web App | *JavaScript, Node.js, Express, EJS, MongoDB, CSS*

- Identified unmet needs among frisbee coaches and built a full-stack coaching platform with a **live in-game stat tracker** for real-time data entry during games
- Designed the MongoDB schema and workflows supporting player management, per-game versus cumulative stats, and side-by-side player comparisons
- Built RESTful routes for player and game CRUD operations and live stat updates on a Node.js/Express server
- Deployed on Render with a Node.js/Express backend and EJS frontend

EXPERIENCE

Customer Experience Associate

TD Canada Trust

May 2025 – May 2026

Vancouver, BC

- Collaborated with financial advisors and specialists to deliver personalized client referrals, generating **\$1.2M+** in investments and helping grow branch business **18%**
- Built Excel dashboards and utilized Teams and OneDrive pipelines in tandem with advisors to track the in-progress sales, lifting individual sales closing rate from **45% to 95%**
- Achieved **customer score of 100%** in 2026 through concise and effective communication in personal client interactions

Financial Assistant

Pharmasave

Oct 2024 – Jan 2025

Vancouver, BC

- Conducted margin and pricing analysis across **50+** OTC inventory products and maintained audit-ready records in accounting software

LEADERSHIP & AWARDS

National Champion — Dyno Open, Prime Ultimate Club

Canadian Ultimate Championships

Aug 2024

Ottawa, ON

- Won the national title through 10+ hour weekly practices, relying on concise communication and accountability under high-pressure national games
